#### Fleurieu Food Networking Night

Thank you to all who attend our Spring Networking evening. We had a great turn out of Members & potential new Members.

A big thank you to our lovely host, Gill Gordon Smith from Fall from Grace who provided the wonderful venue and impressive wines.

Thank you to our guest speakers, Vicki Matchett from Matchett Productions, Charlene Darmadi from Fleurieu Gifts and Jillian Mitchell who spoke about a Small Regional Communities funding opportunity.

The next Fleurieu Food Networking Night will be held in late February at the Star of Greece. Further details will follow closer to the event.

#### Congratulations d'Arrys Veranda, and Jo!

**The lovely Jo Reschke won the Best Service category in the recently announced 2014 Advertiser Food Awards.**

Judges comment was 'The diminutive Jo's combines genuine sweetness with a steely determination that ensures husband Peter's food is delivered at its best'

Well done Jo, it is certainly well deserved.

### Australian Food and Grocery Council (AFGC) Energy Efficiency Program

The AFGC is offering an energy efficiency program for SMEs in the sector – *AFGC empower*. The program, funded by the Department of Industry, provides energy efficiency related information and advice to businesses, with less than 200 employees, in the sector. As a part of the program, they have developed various tools and factsheets which are available on the program website ([www.afgcempower.org.au](http://www.afgcempower.org.au)). These tools assist businesses to identify, prioritise and implement energy saving opportunities. Other offerings include:

**Free Energy assessments:** The program provides free energy assessments to all eligible businesses. The assessments equivalent to Level 1 provide businesses with a report which will list low cost and no cost energy saving opportunities, financial pathways to implement the recommendations and the feasibility of installing renewable on-site.

**Free workshops:** The workshop hosted at a food manufacturing site, demonstrates application of the program tools on a site by identifying opportunities to improve energy efficiency and estimating the savings. A business hosting the workshop will receive:

3-4 hours onsite technical investigation / support from *Energetics* (a reputed energy management firm);  
Additional support of up to 2 days available if they decide to implement a recommendation; and  
Business case study.

The program finishes in April next year and there is no cost for businesses. For more info please contact:
